ABSTRACT:

PROBLEM TO BE SOLVED: To provide a method and system for automatically managing donations and contributions, having new means for settling donations and contributions by providing services to accept donations and contributions by use of portable terminals.

SOLUTION: A portable terminal 1, a surrogate reception facility 2, and a settlement facility 3 which are interconnected through a network are used. Money information for specifying the sum of a donation, individual information about a donor, and settlement requirement information are input through the terminal 1 and transmitted to the reception facility 2. The reception facility 2 transmits the settlement requirement information to the settlement facility 3 to request the settlement facility to determine if a settlement can be made; if the settlement can be made, reception of the donation is approved, and this is reported to the terminal 1; if the settlement cannot be made, reception of the donation is rejected and this is reported to the terminal 1.
